

MAO DOUDELL

FLUTTER & BACKEND DEVELOPER

maodoudell@gmail.com · +855 96 2070072 · Dang Kao, Phnom Penh, Cambodia · <https://maodoudell.github.io>

PROFILE

Flutter and Backend Developer with over five years of experience building and maintaining cross-platform mobile applications using Flutter and two years of experience developing RESTful APIs and backend services using Java Spring Boot. Developed and maintained AIS-LMS, a learning management platform serving more than 5,000 active students, teachers, and parents. Published and maintained applications across the Apple App Store and Google Play Store. Experienced in Firebase, PostgreSQL, Linux server management, and CI/CD automation.

EXPERIENCE

Flutter Developer

Mengly J. Quach Education PLC

Phnom Penh, Cambodia · Jan 2024 – Present

- AIS-LMS (Learning Management System)
 - Developed mobile application
 - Developed RESTful APIs, Microservices, Video streaming, System integrations, Messaging
 - Maintained and enhanced production systems by delivering new features, resolving technical issues, improving performance, and providing ongoing user support.
 - Collaborated with external vendors to integrate third-party systems, coordinate technical requirements, monitor implementation progress, and ensure timely delivery.
 - Managed application deployment and DevOps operations, including Linux hosting, Nginx configuration, CI/CD pipelines, system monitoring, and database backups.
 - Conducted unit, stress, and load testing using Locust, and JMeter to improve system reliability, performance, and scalability.
 - Applied AI-assisted development tools to accelerate UI implementation, support code reviews and testing, improve business logic, and identify potential code-quality and security issues.
- Queue Management System
 - Developed flutter desktop for printing queue ticket
 - Developed web application for queue display and counter
 - Developed RESTful APIs using Java Spring Boot
- E-Wallet (POS)
 - Developed mobile application for POS terminal

Flutter Developer

Rizki Digital Connection & Trading

Phnom Penh, Cambodia · January 2022 – November 2023

- SURSDEI Buyer (Social Commerce Application)
 - Develop a feature like social media and food delivery features such as posts, comments, reactions, sharing, and short-form videos, as well as product browsing, order placement, and real-time order tracking.
- SURSDEI Merchant (Merchant Application)
 - Develop a feature product, promotion, category, option, and variant management, along with order processing and real-time driver tracking.
- SURSDEI Driver (Driver Application)
 - Develop a feature real-time location tracking while driving, as well as order acceptance and rejection workflows.
- Managed the complete application release lifecycle, including build configuration, testing, submission, deployment, and ongoing maintenance across the Apple App Store and Google Play Store.

Flutter Developer

Kravanh Eco

Phnom Penh, Cambodia · June 2020 – December 2021

- Developed ICE CREAM mobile application using Flutter and Firebase, enabling customers to locate and book nearby ice cream sellers.
- Developed SOKLY e-commerce application for browsing and purchasing electronic products and accessories.
- Tamneak (Social Media Application)
 - Developed responsive user interfaces, integrating Firestore queries, and implementing social features such as posting, sharing, reacting, commenting, and short-form videos.
 - Implemented push notifications using Firebase Cloud Functions and integrated Google Analytics and BigQuery to support user-behavior analysis and application reporting.

EDUCATION

Bachelor’s Degree

CADT (Cambodia Academy of Digital Technology)
